Our company prides itself in the quality of the product we produce. It is because of our employees that we meet and exceed the expectations of our clients, who are our friends, neighbors, co-workers and family.

ABOVE GRADE

As most of you know, one of our Lake Charles project managers, Gary McElwee, was out for a few weeks due to medical reasons. We wanted to let everyone know his recovery went well and he's back at work!! He has expressed how much he appreciated all the phone calls, texts, prayers and well wishes he received while he was out. We ask that you continue to lift him up as he continues his recovery and therapy. This place was just not the same without him. So glad to have you back Gary!

BUILDING BLOCKS

- 19 Yrs** - Ozzie Biasizzo
- 10 Yrs** - Rebecca Brown
- 6 Yrs** - Joe Peavy
- 5 Yrs** - Dusty Benoit
- 4 Yrs** - Russ Jeansonne
- 3 Yrs** - Ramona Sosa

- Zackery Harris
- Jeff Leger

SEPTEMBER

- Ross Bowers
- Wilson Fuselier
- Joe Peavy
- Chance Bass
- John Bookout
- Michael Durkes

SOLID FOUNDATIONS

GILLIS ELEMENTARY

This project includes construction of a new two-story classroom wing with sixteen (16) classrooms, restrooms, and provisions for vertical transportation. The Superintendent for this project is Keith (Bama) Ballard. He says the plumbing and CMU installation is complete for the first floor, and he has a major power outage scheduled to finish all underground electrical that should be complete by the end of July. The project is being managed by Kendall Bolton and still on schedule to be finished by July 2020.

BAYOU RUM EVENT CENTER

We have featured this project in previous newsletters, but it most definitely deserves a second look. Construction is now complete for this new warehouse and event center, which includes a catering kitchen, event space, barrel storage area, restrooms, and courtyard. With the recent grand opening and ribbon cutting ceremony, the event center is officially open for business!

SAM HOUSTON HIGH SCHOOL GYM & BAND BUILDING

This project consists of the construction of a new 37,000 square foot gymnasium and band hall to Sam Houston High School. Steel erection is complete and CMU installation is underway. We are still on schedule to be complete in the first quarter of 2020. This project is being supervised by Larry Langley and managed by Ross Bowers.
