September 22, 2010

Dear Mr. Williams,

Folks are often too ready to share complains, and too slow to express appreciation. Well, this letter is to express appreciation.

Our experience with your three lead men on the construction of our multi-use building has been excellent. Tony was always way ahead of the game. He had materials and workmen lined up ahead of time and construction was never slowed by failure to have every time in place and the workmen on their jobs. This includes subcontractors. He was always pleasant and easy to work with. Will Jenkins was likewise always on the ball. He was never aggravated by questions and was willing to help us at any point. Lynn "Catfish" was never anything but polite and helpful. Together, they make an excellent team who were a joy to work with. Our building is absolutely beautiful. The work is well done from beginning to end. These men have stood behind their work and their commitment. We have not experienced a single problem of significance and we feel certain that if problems arise in the future, your men, you, and your company will stand 100% behind it. Thanks for having these men on your team. We are glad to share with anyone our happiness with your company's work. also

Sincerely,

Lynn P. Clayton  
Pastor
